## Arcade Legends / Ultracade Game System with 265 Classic Games - \$20000 (Katy)

image 1 of 17

condition: **like new**

make / manufacturer: **Arcade Ledends**

model name / number: **Ultracade**

I am selling a collectors dream. There are very few in existence.

This machine is perfect shape with 265 of the best arcade games ever. All games are were purchased and are 100% licensed.

These are the exact same games, video and audio as the ones in the original arcade games.

What makes this game so special?

When I purchased this system new with the original 80 games I purchased additional singles games, games packs and impossible to find games I always wanted to have. They were not cheap but I made the investment because I wanted the original game not some cheap MAME or Chinese version of my favorite games. I purchased all licensed and copyrighted games and installed the maximum amount that is now 265. (games listed below)

Since my purchase there was a lawsuit (google....(ultracade lawsuit) involving several companies because come to find out someone stole, copied and sold the games without permission. It's called copyright infringements and it is big time against the law. While there many machine sold and lots of individual games packs and games sold, the lawsuit did not pursue the end buyers (ME) because there was not intent or knowledge by any of the buyers.

Well I recently heard about this and found that there is less then 100 systems worldwide that have every game. (MAX 265) that is what mine has.

Also out of that less then 15 of them have the most sought after games that are games like Dig Dug, Galaga, Pac-Man, Ms. Pac-Man, Q-Bert and many others games that I purchased legally for my system. (photos shown)

All this being said this is an adult owned in perfect condition with no flaws, dings or scratches collectors game system that will not only be allot of fun but also will continue to gain value with years to come.

Why am I selling it? Well I was going to add it to my Will for my kids, but they are not acting right and I have decided to pass it to someone who will enjoy & appreciate it as much as I have and hell I could use the money while I'm alive.

I have been told the system is worth between 18k to 22k in auction to a buyer. So I choose a number in the middle and no auction fees need will need to be paid.

If you are seriously interested feel free to call me at 281-606-5601 and leave a message and I will call you back within the hour.

I am posting it here on Craigslist to see if there is a local buyer, if not success I will be listing nationally on eBay.
